

# PUBLIC LEDGER

SIXTH YEAR.

MAYSVILLE, KY., SATURDAY, JUNE 12, 1897.

ONE CENT.

**Sworn**  
**CIRCULATION**  
**LARGEST IN THE CITY.**

### Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can toss over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

### The Continued Calls

upon THE LEDGER for free notices have become so burdensome that we are forced to publish the following terms:

### For Notices of Suppers,

excursions, fairs, or other public entertainments where a fee is charged, and for obituary notices, resolutions of respect, etc., THE LEDGER will charge FIVE CENTS A LINE, and hereafter this will be the invariable rule. This, however.

### Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

### Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for Business Local in THE LEDGER is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local inserted in the paper. "I'll tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—52 times—the bill is \$13.25. When he finds it out there is a "kick" and a controversy, followed probably by an icy feeling. Now, to obviate this trouble, no "bill for" notices will be accepted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant all around.

All matter for publication must be handed in before 9 o'clock in the morning of each day.

If you have an item of news, please call up THE LEDGER, Telephone 33, and send it in.

## Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

NEWSY NOTES FROM NATURE'S GREAT HIGHWAY.

The Sherley passed up last night for Pomeroy.

The Bonanza passed down last night from Pomeroy and returns tonight.

The W. F. Nisbet will pass down tomorrow from Charleston for Cincinnati.

The rise in the river didn't amount to very much, and the old stream is again falling at headwaters, with excellent prospects for a long siege of low water.

After due deliberation the Pittsburgh and Cincinnati Packet Line decided to not send out the Queen City to Pittsburgh today. The rise in the river did not amount to as much as was expected at first, and it was thought best to take no chances with the fine new boat, but to wait until there is more water in the river. The trial trip of the Queen City demonstrated at once that she is one of the best handlers ever built. Although her steam steering rigging was not working, she handled perfectly and called forth many expressions of satisfaction from practical steamboatmen on board. There was not a leak in any of her pipes or connections, and not a mistake was made in any of her machinery. She works beautifully, makes plenty of steam easily, and will be an economical user of coal.

We are now installed in our new Coal Docks, and sell
